The Immediate Past President's Message

Dear life members:

Greetings!

I hope you had a wonderful year 2018 and wish you all a very exciting and happy new year 2019. This directory is a second edition, the first being published in 2009. The publication of the last directory was found useful by everyone. However, this directory is new in its own kind due to two reasons. The first is we are listing only life members and secondly we are listing as per the permanent residence of retired members and as per place of work for those who are in active duty.

This new version is necessary to align our professional society as per the changes in the country. There are currently 761 governments from local to the center and these local governments need a lot of support and guidance from professionals. I believe, listing our life members as per the Province will help the interested investors or service seekers within the Province to reach out to professionals easily and efficiently. This quick and efficient communication between service seekers and professionals will help in the growth of the horticulture sector in Nepal. It will also help horticulture professionals to serve the farmers or investors enabling them in commercialization of horticulture sector in Nepal. I also urge members to support our sponsors and help them reach to the service seekers.

I thank the team responsible for publication of this directory especially Mr. Sanjay Dhimal for his hard work in coordinating and working with the press. I also thank all the sponsors who came forward to support us in this venture.

This directory had been targeted to be published before February, 2019 but it could not be done due to unavoidable circumstances. Hence, this directory has been published in the month of June, 2019 under the tenure of 10th executive committee and wishes all the success of this new committee.

Best wishes

.....
Umed Pun, PhD
